

Hello!

We are excited to offer a couple sailing class options this fall. We will have our traditional Learn to Sail (LTS) class, and we are also offering a One Day Sail Experience (ODSE).

The LTS class will be held both Saturday and Sunday, Sept. 10 & 11 and will include mornings in the classroom and afternoons on the water. Saturday you will be sailing with experienced skippers in their boats, Sunday you will be sailing in pairs, in "your own" club owned 420 sailboat. The class is limited to eight participants. Rain date will be Oct. 8 & 9.

The ODSE class will be Saturday only (Sept. 10) and will include morning class time and the afternoon on the water also sailing with experienced skippers in their boats. This class too is limited to eight participants. Rain date will be Saturday, Oct. 8.

All participants will receive the book *Learn Sailing Right!* and we ask that you read the book prior to attending class. We will begin in the classroom with a power point presentation and going over the reading. We will break for lunch, then the group will join skippers to rig and launch boats. The afternoon will be spent on the water practicing what was covered in the classroom. We will return, put boats away, come back to the classroom for refreshments and talk about the day's experience.

Those in the LTS program will return Sunday, again we will begin in the classroom this time talking more about sailing theory. After lunch we will rig the 420s, go through a capsizing drill, then spend the afternoon practicing maneuvering (sailing around marks) and practice some docking and launching.

In the past we've had more demand than we could manage and we hope having the concurrent classes will allow us to meet the need. Because of the larger class we have reduced the price on the LTS class but we are confident the experience will be every bit as impactful.

The links below will take you to the registration pages, please note registration is complete with payment. The payment link may come as a separate email so please check "junk email" as this has happened in the past. Also, if more than one member from a household is participating in the LTS class we are happy to extend a \$25 refund to the "additional" member(s). Refunds handled separately.

One Day Sail Experience:
